

**September 22, 2025**

**Addendum No. 04**

**File Reference Number: RFP 2025 073**

**Title: Island Falls Demolition and Supply and Installation of Two (2) Custom Seacans**

**RE: Clarifications/Questions**

---

Please refer to the following information/clarification:

**CLARIFICATIONS**

**Item 1: Part 3 – RFP Specifications – Schedule 3-A-1 – Scope of Work – Project Locations**

Please be advised that ONTC will now organize and cover the costs for the rail cars needed to bring the contractor's equipment on site. ONTC will also organize the rail equipment to transport the debris. The Contractor is responsible to load it at the Island Falls site, unload it at the Cochrane Site and have it sent to the Landfill site.

Due to the change in the Scope of Work, ONTC has lifted the previous requirement that restricted proposal submissions only to those who attended the mandatory virtual respondents' meeting. This requirement is no longer in effect, and all respondents, regardless of their attendance at the meeting, are now eligible to submit a proposal.

Please replace Part 2 – Request for Proposals – Summary of Requirements – Schedule 2A – RFP Data Sheet of the RFP with the one attached at the end of this Addendum.

**Item 2:** Please be advised that ONTC has extended the submission deadline for this RFP. The revised submission deadline is now **Friday, September 26, 2025 at 2:00 p.m.**

This Addendum hereby forms part of the RFP.
