**June 25, 2026**

**Addendum No. 01**

**File Reference Number: RFP 2026 042**

**Title: Cochrane Freight Shed Interior and Exterior Upgrades**

**RE: Clarifications/Questions**

**QUESTIONS/CLARIFICATIONS:**

**Item 1:** Can ONTC please clarify whether the metal cladding in front of the ramp and stair forms part of Phase 1?

In Appendix D - Schedule of Prices Item No. 4 under Phase 1, states new cladding is required; however, part of the scope also involves cutting 8" from floor level. Would this not be redundant if the metal cladding is to be replaced?

Would it be more practical to include all metal cladding work within a single phase to reduce costs associated with delivery and/or storage?

**Answer:** ONTC accepts the purchase of all cladding material to be purchased during Phase 1 in order to save costs on delivery and storage.

Appendix D – Schedule of Prices has been updated with Phase 1 Item 8 for the costs of the cladding materials and has been provided as a separate attachment to this Addendum No. 01.

The RFP documents have been updated accordingly and are identified below. The revised sections will supersede all previous versions of the corresponding RFP documents.

Delete Document:	Replace with Revised Document:
Appendix D – Schedule of Prices	Appendix D – Schedule of Prices (Addendum No. 01)

This Addendum hereby forms part of the RFP.
